PickupMate Trunk

Model:VMS-PM-TK

Compact Outside. Smart Inside.

Minimal setup, maximum versatility. Compact and lightweight when closed, with no impact on vehicle clearance. A classic boxy design, fully automatic opening, durable lightweight construction, Dual-Level Living Space, integrated smart systems, and expandable side and roof sections for all outdoor adventures.

01 Non-destructive Installation

Closed dimensions stay within height and width limits, preserving the pickup's original passing performance.

02 Fully Automatic Setup & Retraction

Controllable via remote controller or mobile APP both the first and second decks open and close automatically.

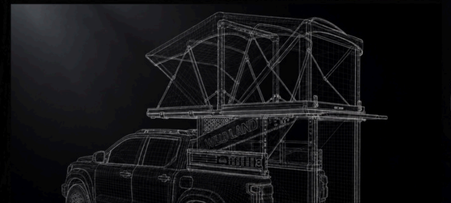

03 Patented Opening-Closing Mechanism

Multi-point supporting frame combined with triangular bracing structure for outstanding sturdiness and long service life.

04 Lightweight Design

Lightweight build without sacrificing stability and reliability.
